

This is a detailed aeronautical chart of the Bern-Belp area in Switzerland. The chart is centered on the Bern-Belp airport (LSZB 1675) and shows various flight paths, altitudes, and surrounding regions. Key features include:

- Geographical Context:** The chart shows the borders of France to the west and Germany to the north. Major cities like HOC (Hof) and MONIN are marked.
- Flight Paths and Altitudes:** Numerous flight paths are depicted with altitudes ranging from 5000 to 13000 feet. Specific altitudes are labeled along the paths, such as 5000, 6000, 7000, 8000, 9000, 10000, 11000, and 13000.
- Airports and Navigation Aids:** The primary airport is Bern-Belp (LSZB 1675). Other airports shown include Grenghen (LSZG 1471) and HOC. Navigation aids like VORTAC (VOR 113.1 MHz) and TMA (Terminal Manoeuvring Area) are also indicated.
- Obstacles and Terrain:** Obstacles are marked with their MSL (Mean Sea Level) and AGL (Above Ground Level) altitudes. For example, the obstacle at BERN-BELP has an MSL of 1675 and an AGL of 1675. Other obstacles are shown at various altitudes, such as 5000, 6000, 7000, 8000, 9000, 10000, 11000, and 13000.
- Scale and Orientation:** The chart includes a scale bar indicating distances in kilometers (0 to 30) and nautical miles (0 to 20). The orientation is indicated by a north arrow pointing towards the top of the chart.
- Chart Information:** The chart is dated VAR 2019.5 and includes a note: "BEARINGS TRACKS AND RADIALS ARE MAGNETIC DISTANCES IN NM ALTITUDES IN FT".
