Adjustment of usage fee baggage sorting system at Zurich Airport (LSZH)

The baggage sorting system at Zurich Airport is currently being renewed. The lifecycle program includes the substitution of the sorting and transporting infrastructure as well as the installation of a baggage storage facility for checked-in luggage. Due to these significant investments and the associated increase of the regulated asset base, the usage fee for the baggage sorting system will be adjusted.

This publication is made in accordance to Art. 46 Para. 1, Ordinance on Airport Charges (OAC).

The user fee for the baggage system is levied for S/C flight events only.
