
GEN 4.2 AIR NAVIGATION SERVICES CHARGES

1. EN ROUTE AIR NAVIGATION SERVICES

1.1 Principles

The main following principles apply:

- The Swiss FIR constitutes a single charging zone
- A single unit rate is set per charging zone
- Charges take the DIST flown and the MTOM of the ACFT into account
- Charges have to be paid by the ACFT operator. If the ACFT operator is unknown, the ACFT owner is the debtor of the charge
- In case of non payment of the charges by the debtor, air navigation services may be denied

As signatory of the Multilateral Agreement of 12 FEB 1981 relating to air navigation route charges, Switzerland is a member of the EUROCONTROL Organization and thus applies all related rules. Of particular interest for the user are the Conditions of application of the route charges system and conditions of payment which are AVBL on the following web site:

URL: <http://www.eurocontrol.int/articles/reference-documents>

The detailed principles applied also are set by the Federal Ordinance on air navigation services which is AVBL in the Swiss official languages on the following web site:

URL: <http://www.admin.ch/ch/f/rs/rs.html>

1.2 En route charges

The Swiss unit rate is set up in Swiss francs and is recalculated monthly in Euros by applying the average monthly exchange rate between the Euros and the national currency for the month preceding the month during which the FLT takes place.

The Swiss tariff is AVBL on following web site:

URL: <http://www.eurocontrol.int/services/monthly-adjusted-unit-rates>

It is composed of a national unit rate to finance national air navigation services and of a regional administrative unit rate to finance the central billing and collection of charges at the EUROCONTROL level.

The exchange rate applied shall be that published in the Official Journal of the European Communities (Information and Notices). Where not indicated in the Official Journal, the exchange rate shall be calculated by reference on the one hand to the rate of exchange between the Euro and the dollar of the United States of America and, on the other hand, to the rate of exchange between the national currency concerned and the dollar of the United States of America as published by the International Monetary Fund in its "International Financial Statistics".

The data for the calculation of the charges are derived from the flight plan. Flight plans should therefore be CMPL in strict accordance with ICAO instructions.

With regard to the conditions of payment of route charges the interest rate on late payment of route charges is published on Eurocontrol circulars:

URL: <http://www.eurocontrol.int/articles/information-circulars>
