
ENR 5.2 MILITARY EXERCISE AND TRAINING AREAS AND ADIZ

1. Temporary Reserved Areas (TRA), LST

A TRA is a defined volume of airspace normally under the jurisdiction of one aviation authority and temporarily reserved, by common agreement, for the specific use by another aviation authority and through which other traffic may be allowed to transit, under ATC clearance.

TRAs are an instrument applied by Airspace Management REF: [ENR 1.9 6.](#)

The obligation to obtain a clearance prior to entering a TRA and the authority to issue such clearance are specified by the classification of the airspace within which the respective TRA is located [ENR-1.4.](#)

All TRAs under ENR 5.2 are manageable by the AMC.

Flight Plan Buffer Zone (FBZ) has been established for IFR flight planning purposes only.

Flight plans can be filed up to the boundary of the FBZ when allocated in AUP / UUP and corresponding restrictions in RAD Annex 2C shall be observed.
